Index of Articles - 1971

Volume 10, Number 1

Conversational, Two-Dimensional Fitting Program for PDP-9/L

A PDP-9/L Program to Histogram Data From Four-Word Events

The LAB-8 as an Instructional Tool

Modernizing a PDP-7

Design of a Patchable Interface for On-Line Control Development

A Slow-Run Option for the PDP-10

Equipment Cabinet Front Cover Hangup Solution

An Introduction to Vector-8, A New Programming Lanugage

Programming Notes

- FOCAL Fraction - Decimal Conversion
- Clinical Biochemist
- Erase Negative Numbers
- FOCAL, Amity
- Format-Free Input for FORTRAN

DECUS Notes

Customer Exchange Board

DECUS Annual Report - 1970

Bits and Pieces

Wanted

Did You Know?

Maindec Notice

Number 2

Line Printer to PDP-8 Interface

Surface Plate Auto-Collimation

CRIT - A Pedagogical Reactor Multiplication Factor Calculating Code

Inexpensive Graphic Display for the PDP-8/L

A Special Fourier Transform Algorithm

Baton Rouge State Times Describes PDP-8 Computer Program Developments

Number 2 (Continued)

A Radiotherapy Dose Distribution Data Acquisition Analysis and Filing System

Programming Notes

Bin Loader Patch to Permit Simultaneous Loading and Copying of Tapes

Revision of Binary Loader Digital-8-2-U

Patches to PAL III

Letters

DECUS Notes

PDP-8 Newspaper Users Meeting

DECUS Program Library Note

New LUGS

Wanted

Bits and Pieces

PS/8 Newsletter

Number 3

Low Cost High Speed I/O for the PDP-8 Family

A Simple Interface for On-Line Data Transfer Between a Label 4096-Channel Analyzer and a PDP-9

A Solid-State Light Pen and Computer Interface for the Tektronix 611 Storage Oscilloscope

Automatic Bootstrap/Program Loader

Chebyshev Polynomial Approximation by FOCAL

The Full Utilization of the Small Dedicated Computer

Programming Notes

A Convenient 'Pause' Call in FORTRAN-D

An Interrupt Processor Patch for FOCAL, 1969 on the LINC-8

FOCAL Patch for Sampling the ADC of the LAB-8

File Names

Pieces of PI

Random Number Generator for PDP-9 (9/L)

Notes on BCD to Binary Conversion

Decreasing the Execution Time of FOCAL Programs

Matrix Inversion with PAL-D

Number 3 (Continued)

Numerical Integration

$1.33 Low Tape Indicator

Bits and Pieces

Letters

The Association for Computing Machinery (ACM) and the Joint User Group (JUG) Releases First Computer Program Directory

JUG Program Library Interchange Service

DECUS Notes

Number 4

CRTPAC - Flexible High Speed Character Generator and Display Package

Using the KW12 Real-Time Clock in PDP-12 Psychophysics

A Punched Paper Tape Generator with Automatic Randomization of User-Defined Punch Sets

Hardware Notes

Monostable with CLR Line Simplifies the Time-out of the PDP-11 Unibus

A Slow-Run Option for the PDP-8/L

Interfacing DEC Negative Logic Levels and Emitter Coupled Logic

An Automatic Bootstrap Loader for the PDP-8

Programming Notes

Revision of RIM Loader

Converting 2421 BCD Code to 8421 BCD Code

Modification to DIAL-MS Listape Function

PDP-11 Programming Note

EXIT: A General Purpose Loader for a DECtape-Oriented PDP-8

Bits and Pieces

Wanted

Customer Exchange Board

Letters to the Editor

Number 5

A Proposal for a Multifield PDP-8 Timesharing System

CIG8 - A Graphics System for Science and Engineering Education

A Geometric Truncation Function for Fast Fourier Transforms

BS 4421 Controller for PDP-11

A Reliable Bioelectric Signal Recognizer

A PDP-8/I Interface for Two Packard Analog-to-Digital Converters and a Multichannel Analyzer

Programming Notes

FOCAL Conic-Plotting Routines

Ansi FORTRAN Standardization Activity

BCD Counter
